- 3.2 Deployment of a Safety Team having adequate qualifications, knowledge & experience in HSE (Health, Safety & Environment) principles & guidelines. Implementation of the same including as minimum but not limited to, exposure to work at height and scaffolding, Developer's Safety System to ensure barricade, edge protection, covering shaft and lift opening, safety nets, housekeeping at various towers and worksite, training, sign board, etc. as per the mandate of BOCWA Act. Maintaining & auditing all BOCWA documentation & compliances will be a key performance liability of the contractor.
- 3.3 Contractor will be responsible for maintaining the site premises adhering to requirements mentioned in safety manual (Contractor to submit Safety Plan and to get that approved).
- 3.4 The Contractor shall prepare an emergency plan in line with foreseen emergency situation and the same shall be communicated to its staff as part of training. The preparedness should be checked for its effectiveness by conducting mock-drill (minimum once in every 3 Month). The emergency plan shall be approved by the Company. An emergency rescue plan along with adequately trained team must be in place while working at height, working in confined spaces, hot job etc. The Contractor shall submit such emergency rescue plan to the Developer for inclusion in the site-specific "Emergency response procedure".
- 3.5 The Contractor shall carry out a "Risk Assessment" for each activity (Ongoing as well as future). The Risk Assessments should be submitted to The Developer for review & approval. The Contractor shall ensure that all safety controls for all activities are in place at all times in accordance with the "Risk Assessment".
- 3.6 The Contractor may issue "Stop Work" orders for any activity that is deemed unsafe.
- 3.7 The Contractor shall be responsible for maintaining very high standard of housekeeping including clearly defined walkways and stairways, keeping clean unobstructed pathway free of tripping hazards, prohibit storage of materials and equipment in aisles or under stairways.
- 3.8 The Contractor shall post signs & barricades to warn tripping or slipping hazards, maintain adequate lighting, have well-marked first aid /assembly points.
- 3.9 The Contractor shall not allow storing of loose material at height (placing them in cage/box). (Manpower for housekeeping & supply of Signage's shall be in Developer's scope).
- 3.10 The Contractor shall maintain stipulated minimum workforce on site at all working hours irrespective of leaves/holidays. Not maintaining the agreed workforce on site at times will not relieve The Contractor from any of the liabilities.
- 3.11 The Contractor shall submit Daily Reports with monitoring of predefined objectives by Site Management.
